THE 5C EXPERIENCE

What is it? As grade 6 students, you are more than familiar with the 5C’s and the importance of showing them at all times. As you meet your prep buddies, it is vital that you share some of your experiences in modeling good behaviour.

What do you need to do? Are you ready to be a buddy? Do you have what it takes? As an individual, you will need to create a 2 minute iPad presentation explaining the role of a Grade 6 buddy. Your presentation will need to explain the skills required to be effective buddy using our school’s core values (the 5C’s) through images, filmed footage from the yard, voice overs, music etc. You are free to use any app on your iPad to complete this task.

Draft: You need to make sure you have written down exactly what you intend to do in a document on your iPad.

Can I work with others to help my presentation? Yes, you might like to work with others for this task through sharing ideas and resources, but every student will need to complete their own presentation.

Getting it checked:

Once you have completed your draft, you need to get the OK from your teacher.

What will I do once I have finished my presentation? You will have the opportunity to sit down with your buddy and show your presentation in the next week or so. During this time, your presentation should show your buddy the importance of the 5C’s and how to best behave at Apollo Parkways PS.
